OBJECTIVE

A highly motivated and results-driven recent graduate with a Diploma in Business Information Technology and a Bachelor's degree in Information Technology. Eager to contribute to the IT field with a strong foundation in technology and business principles. Demonstrated ability in organizing work, prioritizing tasks, and collaborating effectively within cross-functional teams. Proven leadership and communication skills developed through active involvement as a member of the Student Representative Council, preparing me to excel in dynamic and collaborative work environments.

WORK EXPERIENCE

Silentmode Sdn Bhd | Bandar Baru Bangi, Malaysia

Technical Operation Engineer Trainee

2024 (6 Months)

- Monitored and tracked the completion status of technical operation tasks among team members, ensuring all assignments were delivered within established timelines and quality standards.
- Collected system logs and conducted thorough analysis of technical cases, identifying root causes and proposing effective solutions to improve system performance and reliability.
- Ensured strict adherence to security metrics, compliance requirements, and industry best practices to maintain data integrity and protect organizational assets.
- Developed and implemented Python scripts to automate data collection processes, significantly improving operational efficiency and reducing manual workload for the team.
- Conducted on-site visits to Petronas stations nationwide to monitor system performance, troubleshoot technical issues, and implement solutions to ensure seamless operations.
- Successfully coordinated with over 1,000 Petronas dealers for the Single Sign-On (SSO) Project under Petronas Dagangan Berhad (PDB), facilitating smooth system migration and user onboarding.

Pizza Hut Sdn Bhd | Seri Iskandar, Malaysia

Cashier, Delivery, Pizza Maker and Management

2020 - 2021 (1 Year)

- Managed point-of-sale operations as a cashier, ensuring accurate transaction processing and reconciliation of daily sales with system-generated receipts.
- Maintained quality control standards by inspecting all ingredients for freshness and verifying correct measurements of dough portions to ensure consistent product quality.
- Coordinated inventory management including placing orders for supplies such as pizza boxes, ingredients, and other materials, while conducting receiving audits to verify order accuracy.
- Performed delivery services to customers, ensuring timely and professional delivery while maintaining excellent customer service standards and representing the brand positively.

EDUCATION

Universiti Tun Hussein Onn Malaysia (UTHM) | Johor

2021 - Current

Bachelor's Degree of Information Technology with Honours

Final Year Project: *Dynamic E-commerce Platform for Shoe Enthusiasts*

KimieBundle: Ez-Shop System | React Native / Firebase Mobile E-Commerce App

- Developed a full-featured mobile e-commerce application for second-hand shoe trading using React Native (Expo) and Firebase, enabling real-time product listings, order tracking, and cart management.
- Implemented Firebase Realtime Database and Firestore for live data synchronisation, Firebase Authentication for secure user login, and Firebase Storage for product image uploads.
- Built key features including a loyalty points system, in-app chatbot, seller/buyer review system, and push notification support, delivering a complete end-to-end marketplace experience.

Kolej Profesional Mara Seri Iskandar | Perak
